__ (1) Cigarette lighter
__ (1) Canteen, quart size
__ (1) Day pack or fanny pack

This is a recommendation for a seven to ten day hunting trip. The gear listed should prepare you for the worst of weather -- it's better to be safe than sorry. All of this gear, including the sleeping bag should fit into one army style duffle bag. DO NOT bring any suitcases. Try to keep the weight down to around 50 pounds. We will pack beer and liquor into the camp, however we cannot legally supply it. Hunter's orange is not required in Idaho.
